REACH Compliance

The European REACH Regulation (EC) No 1907/2006 for the **Registration, Evaluation, Authorization and Restriction of Chemicals** entered into force June 1, 2007. The European Chemicals Agency (ECHA) has published a list of substances of very high concern (SVHC). These substances are regulated that an "article" or in our case a "Printed Wiring Board" does not contain more than 0.1% of the substances of very high concern (SVHC) listed below.

ITL Circuits confirms that, to the best of our knowledge, the products we manufacture do not exceed the restricted allowance of these chemicals.

- 4,4'- Diaminodiphenylmethane
- 5-tert-butyl-2,4,6-trinitro-m-xylene (musk xylene)
- Anthracene
- Benzyl butyl phthalate (BBP)
- Bis (2-ethyl(hexyl)phthalate) (DEHP)
- Cobalt dichloride
- Diarsenic pentaoxide
- Diarsenic trioxide
- Dibutyl phthalate (DBP)
- Hexabromocyclododecane (HBCDD)
- Lead hydrogen arsenate
- Sodium dichromate, dihydrate
- Triethyl arsenate
- Alkanes, C10-13, chloro (Short Chain Chlorinated Paraffins)
- Bis(tributyltin)oxide

A handwritten signature in black ink, appearing to read "George Papas", is written in a cursive style.
